Adjust drawer

Remove drawer

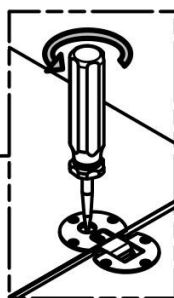

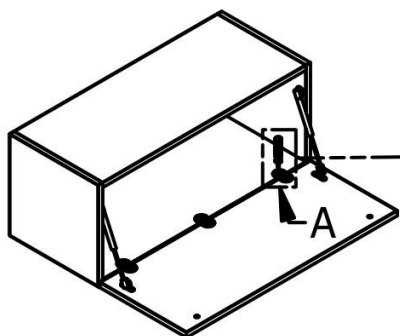

Insert drawer back

## How to adjust fall front hinge(s)

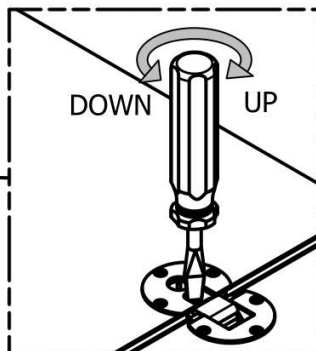

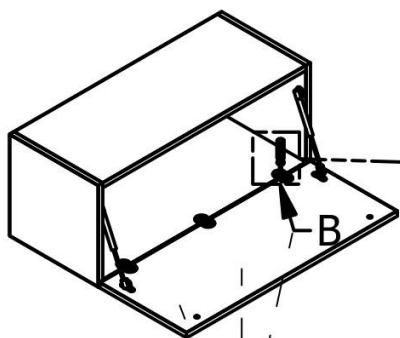

1

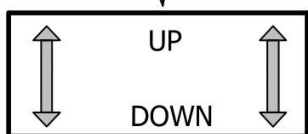

DETAIL A

Loose the back screw a little of all 3 hinges.

2

DETAIL B

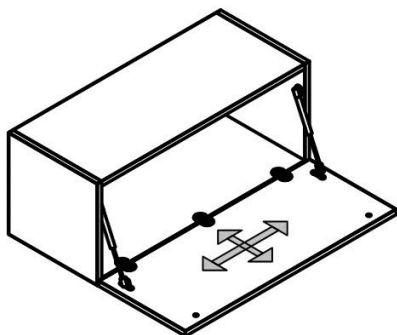

By adjusting the front screw of all hinges the fall front can be positioned higher or lower.

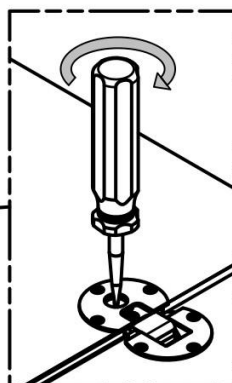

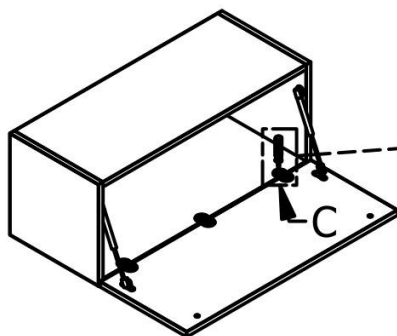

By adjusting the front screw of outer hinge(s) the fall front can be little "rotated" so that only one side goes up / down.

3

Adjust the fallfront so that it is in the centre and if necessary leave a small gap between the fall front and the cabinet.

4

DETAIL C

Tight the back screws off all hinges (to block it).
